Cafeteria	Coke Machine	12	8	1744
Annual KWh Savings =				1744
Total Project Cost =				\$ -

**HOW AND WHERE TO SEND YOUR APPLICATION**

MAIL OR FAX TO:  
 GROTON UTILITIES  
 ATTN: ENERGY CONSERVATION PROGRAM  
 295 MERIDIAN STREET  
 GROTON , CONNECTICUT 06340  
 FAX: (860) 446-4098

**Worksheet Instructions:**

Complete each line for each area of the facility where vending machines are located. Multiple lines can be used for the same work area for multiple vending machines located in the same work area.

- (1) Machine amps can be obtained from the nameplate located on the side or rear of the vending machine.
- (2) The attached table provides annual KWh savings for different size vending machines based on the estimated number of hours where the machine can be turned off during non-occupied hours.

**Rebate not to exceed 50% of total project cost.**
